- ~Students will be given different topics to photograph and/or work on **outside** of school
- ~All homework assignments are 20 points unless told otherwise.
- ~Late homework assignments - deduct 1 point per day. I will not accept any work after one week.
- Late projects - deduct 2 points per day. I will not accept any work after one week.
- ~Participating in daily class projects, discussions and critiques

This class is based in a computer Lab; however it is a studio course. Students will create artwork both on and off the computer. Students will use the computers to research specific topics, after the students complete their research they will begin photographing their project.

*For this class students are also required to have a removable USB flash drive (**8GB minimum**, the bigger the better). This is where projects will be stored. We do not always print artwork. Sometimes students will post image files to their personal website, or save to a network drive. Printed images should be stored safely in a portfolio/ folder.*

Respect each other, the artwork and the equipment. If something is damaged or not working properly please bring it to my attention immediately. Thank you, and I look forward to a great year.
