# SUMMER packet

**PARENT / GUARDIAN PAGES**

*Let's get ready for 3<sup>rd</sup> grade!*

**NOTE:** Please check the child's work after completion. The following pages may be very helpful to you.

<b>6</b>	Answer key: jumped, cleaned, found, thought, had, told, stomped, lost, pushed, got, ran, sold
<b>7</b>	Answer key: Josephine's house number is 852, Nate's house number is 648
<b>8</b>	On this exercise, the student should look through a book and identify 14 nouns (person, place, thing, or animal)
<b>9</b>	The student should draw 8 "ones" and 2 "tens". The "ones" should be small squares that each represent one block. The "tens" should be a connected rod that may or may not have individual lines drawn in to show ten squares. The child is asked to write the total number of blocks in "Number Form" which is 174. They are also asked to write the number in "Expanded Form" which is "100+70+4" or "100+10+10+10+10+10+10+10+4".
<b>10</b>	Answer key: 1.) yourself, 2.) himself, 3.) She, 4.) yourself, 5.) itself, 6.) He, 7.) ourselves, 8.) I, 9.) you, 10.) themselves, 11.) It
<b>11</b>	Answer key: 1.) The correct number sentence is: 25-19. The correct answer is 6. 2.) 32 -20. The correct answer is 12.
<b>12</b>	For success in 3 <sup>rd</sup> grade, it is expected that the student is writing narratives with complete punctuation including uppercase letters at the beginning of sentences, holidays, product names, and geographic names. They must also be consistent with punctuation at the end of sentences. The more you can encourage the child to write over the summer, the better.
<b>13</b>	For success in 3 <sup>rd</sup> grade, it is essential that the student have efficient strategies for addition and subtraction facts through twenty. For some students this means they have memorized the math facts. For other students it means that they use fast strategies (use addition to subtract, mentally count on from ten, etc.). If you notice the student struggling to compute math facts efficiently, I suggest you spend time over the summer helping them develop some efficient strategies. There are many free websites or apps (i.e. <a href="http://www.mathfactspro.com">www.mathfactspro.com</a> ) that are very helpful.
<b>14</b>	On this exercise, the child should look through a book and identify 14 verbs (action words).
<b>15</b>	Answer key: 1.) The correct number sentence is: 30-17. The correct answer is 13. 2.) 24-13. The correct answer is 11.

<b>25</b>	An "array" is an orderly arrangement, often in rows, columns or a matrix. Arrays are used in multiplication and division as it shows a great visual to show how multiplication can be shown as repeated addition and division can be shown as fair shares. Answer Key: 1.) The student should draw an array that is either 3 x 6 or 6 x 3. The addition sentence should either be 3+3+3+3+3+3 or 6+6+6. The answer is 18. 2.) The student should draw an array that is 5 x 5. The addition sentence should be 5+5+5+5+5. The answer is 25.
<b>26</b>	For success in 3 <sup>rd</sup> grade, it is expected that the student is writing narratives with complete punctuation including uppercase letters at the beginning of sentences, holidays, product names, and geographic names. They must also be consistent with punctuation at the end of sentences. The more you can encourage the child to write over the summer, the better.
<b>27</b>	A "balanced" equation is when both sides of the equal sign have the same value. For this problem, $222+27 = 249$ . The student should draw a picture of base ten blocks to show 249 (two "hundreds", four "tens" and nine "ones")
<b>28</b>	The student should understand the relationship between cause and effect in reading and oral storytelling situations.
<b>29</b>	It is expected that the student knows how to add and subtract using concrete models or drawings such as these questions.
<b>30</b>	In addition to capitalizing names of people, by the end of 2 <sup>nd</sup> grade, students are expected to capitalize holidays, product names, and geographic names.  Answer key: The following words should be capitalized: Nintendo, Maria, California, Susie, Disneyland, Spring Street, Simon, Pepsi, Miss Swanson
<b>31</b>	For success in 3 <sup>rd</sup> grade, it is essential that the student have efficient strategies for addition and subtraction facts through twenty. For some students this means they have memorized the math facts. For other students it means that they use fast strategies (use addition to subtract, mentally count on from ten, etc.). There are many free websites or apps (i.e. <a href="http://www.mathfactspro.com">www.mathfactspro.com</a> ) that are very helpful.
<b>32</b>	Most strong readers ask questions while they read. This practice is important for comprehension.

<b>41</b>	<p>An “array” is an orderly arrangement, often in rows, columns or a matrix. Arrays are used in multiplication and division as it shows a great visual to show how multiplication can be shown as repeated addition and division can be shown as fair shares.</p> <p>Answer Key: 1.) 24 marshmallows. The student should draw a 4x6 or 6x4 array.</p> <p>2.) 12 apple slices. The student should draw a 3x4 or 4x3 array.</p> <p>3.) The student should draw a 4x4 array. Their addition sentence should be <math>4+4+4+4</math>.</p> <p>4.) The student should draw a 3x5 or 5x3 array. Their addition sentence should be <math>3+3+3+3+3</math> or <math>5+5+5</math>.</p>
<b>42</b>	<p>The student will be expected to enter third grade writing their opinions with complete punctuation including uppercase letters at the beginning of sentences, holidays, product names, and geographic names. <b>43</b>	<p>Answer key: 1.) The correct number sentence is: <math>36+48</math>. The correct answer is 84.</p> <p>2.) <math>18+24</math>. The correct answer is 42.</p>
<b>44</b>	<p>On this exercise, the student should look through a book and identify 14 adjectives (describing words)</p>
<b>45</b>	<p>Before entering 3<sup>rd</sup> grade, it is expected that the student can add up to four two-digit numbers.</p> <p>Answer Key: 1.) 62, 2.) 92</p>
<b>46</b>	<p>Before entering 3<sup>rd</sup> grade, it is expected that the student can use an apostrophe to form contractions correctly.</p>
<b>47</b>	<p>Before entering 3<sup>rd</sup> grade, it is expected that the student can add up to four two-digit numbers.</p> <p>Answer Key: 1.) 63, 2.) 82</p>
<b>48</b>	<p>Most strong readers visualize (make a mental picture) while they read. This practice is important for comprehension.</p>
<b>49</b>	<p>Before entering 3<sup>rd</sup> grade, the student is expected to be able to solve addition and subtraction problems within 100. This includes problems that involved “regrouping”. It is not enough that the student knows how to “borrow” and “carry”. They must be able to explain how they solved the problem in terms of place value. A great website for practicing this important skill is:  <a href="http://www.mathplayground.com/GrandSlamMath1.html">http://www.mathplayground.com/GrandSlamMath1.html</a></p>

# CONTEXT CLUES

16  
READING

The following stories have make-believe words. Use the clues in the sentence to figure out the meaning of the make-believe word.

Last summer I went to the beach with my grandma. She loves to look for snaples hidden in the sand. Her favorite kind of snaples are the ones that have no broken pieces. The coolest snaples I found still had a small crab living inside. I left that snaples on the beach instead of putting it in my collection.

What do you think snaples are?

What words help you figure out the meaning of the word snaples?

It was the hottest day of the summer so Lucy and Susie decided to sell some refreshing blarling on the street outside their house. They sold cups of the ice cold blarling outside their house. Susie picked fresh fruit from a tree in her yard and Lucy was in charge of getting ice from her house. The drink was a little sour, so they had to add some sugar.

What do you think blarling is?

What words help you figure out the meaning of the word blarling?

"Don't forget to put some clinket on before you go outside" said Claudio's mother. Claudio did not like to wear clinket because the lotion sometimes gets in his eyes and stings. But, clinket is important so that you do not get a sunburn so he rubs it all over his skin. Claudio had a painful sunburn last summer so now he has learned his lesson and wears clinket whenever he is playing in the sun.
