## The Piece Parts: Lesson Books, Unit Plans, Lesson Plans and Lesson Pals

- **Lesson Books** – The Lesson Planner is organized into Lesson Books. You are automatically given one book per course section or subject you are teaching. There can also be “template” Lesson Books.

- **Unit Plans** – Lesson Books contain Unit Plans. One “default” Unit Plan is automatically created in each Lesson Book. You can have one or many Unit Plans in your Lesson Books. Unit Plans contain Lesson Plans.

- **Lesson Plans** – You create the Lesson Plans for your Units. You can put an unlimited number of Lesson Plans in each Unit Plan. Lesson Plans last for one or more days and are laid out on your Lesson Plan Calendar. Lesson Plans can be copied and moved from Unit to Unit and Lesson Book to Lesson Book and day to day on your Calendar.

- **Lesson Calendar** – Lessons are laid out on your Calendar and assigned to be taught on specific days. These ‘due dates’ can be easily changed and Lesson Plans seamlessly shifted to new dates.

- **Lesson Pals** – Your Lesson Pals are other teachers you have requested collaborate with you in polishing your Lesson Plans and with whom you can share plans.

- **Reviewers** – Reviewers are administrators and other Genesis users to whom you formally release your plans for review and who can comment on your plans. There is a separate Reviewer’s Guide for Lesson Planner.

## First Things First: Setting Up Lesson Books

You must identify the Staff Member Object(s) which really identify you. Before you do this you will initially see the following screen:

Genesis School Year: 2011-12 Genesis Township Schools Genesis High School

0 total courses

**No schedule has been found for your user during the week of 08/06/2012**

Here is a list of possible solutions:

- Make sure you have attached a staff member to your user account in the by clicking [here](#).
- Update the start and end dates for your type 'Semester' cycles. Makes sure there are no gaps in the dates. (Setup -> Schools -> Attendance Cycles)
- Check your school calendar to make certain that the cycles days have been applied.
- Make sure you have active Lesson Books.

This simply means that either you have not linked yourself with your Staff Member Object(s) or “teacher structures”, or that you have no course sections/subjects listed in the school’s current Master Class Schedule. Either way, the first thing you must do is to attach yourself to your “teacher structures”.

### Procedure to Select a “Default Teacher”

If more than 1 Teacher is assigned to your Genesis User Login, use this procedure to select “who you really are” – the Staff Member identities that really represent **you**.

1. Navigate to the **Lesson Planner**→**Setup**→**Staff-to-User** Screen
2. **Staff Members** – Select the Staff Members who really represent you. Check the checkboxes for all Staff Members who “are you”. You may only see one listed – this is fine. Choose at least one. **IF THERE ARE NO NAMES LISTED HERE CONTACT YOUR SYSTEM ADMINISTRATOR.**
3. Click “**Save**” to save your changes:

## Personal Preferences

Next, it's time to set your personal preferences for Lesson Planner operation:

Lesson Planner Preferences	
How many courses would you like to display on your calendar?	3 ▼
Display lesson books, that are not attached to a course, on the Calendar screen?	<input checked="" type="radio"/> Yes <input type="radio"/> No
Print font size?	Large ▼

<input type="button" value="Save Preferences"/>	

### Procedure to Set Personal Preferences

1. Navigate to the **Lesson Planner**→**Setup**→**Preferences** Screen.
2. **How many courses would you like to display on your calendar?** – Select the number of course “strips” to display on the Calendar on a single page. This controls how many courses are visible on your Calendar at one time. You can always navigate to all your courses, no matter how many are displayed.
3. **Allow lesson books that are not tied to a course on the Calendar?** – This lets you create new lesson books and display them on the calendar screen. Select Yes or No.
4. **Print font size?** – Select your preferred font size for reports.

5. **Order lesson books by?** – On your Calendar screen, Lesson Books can be listed in either “Period” order or in “Sequence” order.

“Period” order lists your Lesson Books top to bottom by your class periods.

“Sequence” order allows you pick the order you wish your Lesson Books to be listed in. You specify the “sequence number” for each Lesson Book on the **Lesson Planner**→**Lesson Books**→**List Books** screen. See below “**Ordering Lesson Books on the Calendar**”.

6. **Fit row height to screen size?** -
7. **Default new Lesson Plans to 'Sharable'?** - Every Lesson Plan can be set to be ‘shared’ with your Lesson Pals and published to the Library. This controls your personal default. When this is checked your Lesson Plans will default to “sharable”. When it is unchecked, your Lesson Plans will default to being private to you.

8. **Show Standards on Weekly Lesson Plan Report?** - Checking this prints the standards to be covered on the weekly lesson plan reports. Otherwise, to save space and paper, the standards are not printed.
9. Click  to save your changes. – You must save!

## A TOUR THROUGH YOUR LESSON CALENDAR

The Calendar is your number one “Home” screen in Lesson Planner. This section takes you on a tour through its piece parts.

The **Lesson Planner** → **Calendar** screen displays your weekly Lesson Plans:

The screenshot shows the Genesis Lesson Planner interface. At the top, there are navigation tabs: < Previous, Documents, Lesson Planner, Standards, Staff. Below that are options for Lesson Books, Calendar, Setup, Review Plans, Mapping, Reports. A dropdown menu shows 'Lesson Planner Calendar'. A search bar is on the right. The main area is a calendar grid for the week of 05/23/2014. The left sidebar shows course details for '10183 ENGLISH 1 AC - B' and '10184 ENGLISH AC - A'. Callout boxes provide the following information:

- Top Callout:** Select your books or your Lesson Pal's books.
- Right Callout:** Each strip is a separate “Lesson Book” or course section.
- Left Callout:** Left side block describes the details of the associated Course Section/Lesson Book and displays useful icons and controls. These blocks can be color coded by class.
- Bottom Callout:** Every “box” is one day for one Lesson Book – many lessons can be in one ‘class day’.

This close-up shows a course block for '35210/2 US HISTORY 2' by Barry, Per. 2, with a 'Gradebook' link and a 'Post' button.

The left side Course block describes your course and gives you information about the Lesson Book. Click on the course name to open the Lesson Book settings screen.

**US HISTORY 2** - Click on the book's name to bring up the “expanded plan” view for this Lesson Book for the selected week. See below.  
 - Copy all Lesson Plans for the week to clipboard.

- Hide this course – Remove it from the Calendar.

- Get a PDF of the week's lessons for this class.

[Gradebook](#) - Hot link to the attached Gradebook.

- Submit the Lesson Book for review for the week.

The Calendar displays one week of lessons at a time. The Week Navigator appears in the “Monday” column header:

The Week Navigator shows 'Monday' as the selected day, with 'Next >>' and '<< 06/23/2014 >>' navigation options. A status bar indicates '6 Total Courses'.

Select week or use the “Previous”/”Next” arrows.

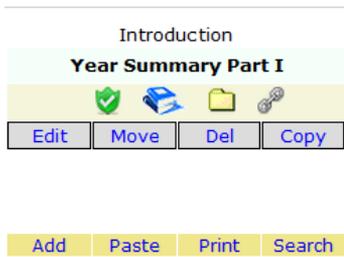

**Day Cells:** Each day ‘cell’ can contain Unit and LESSON PLAN LINKS. Each starts out empty:

Each day has three controls along the bottom that are used to fill the cell with a Lesson Plan:

- **Create** – Create a new Lesson Plan
- **Search** – Search for existing Lesson Plans to copy or move here.
- **Paste** – Paste a Lesson Plan copied elsewhere into this cell.

## Calendar Day Cells with Lesson Plans

Once there is a Lesson Plan in the Day, the buttons along the bottom change:

- **Add** – Add a new plan to the day
- **Paste** – Paste the plan on the clipboard into this day
- **Print** – Bring up a PDF of the day's plans
- **Search** – Bring up the Lesson Plan search tool.

## Lesson Plan Name and Function Buttons

In addition, each Lesson Plan in the day has a set of function buttons specific to that Lesson Plan. Each Lesson Plan has its own set of function buttons just below it:

- **Edit** – Bring up the Modify Lesson Plan screen for this lesson.
- **Move** – Move the Lesson Plan to another day.
- **Del** – Delete this Lesson Plan from the day
- **Copy** – Copy the Lesson Plan to the Clipboard.

- Assignments – The Plan contains template Assignments. Click to bring up a screen listing the Assignments.

- Standards – The green shield indicates the plan includes standards.

- Documents – One or more documents are attached to the Lesson Plan

- Linked – This plan is linked to others.

[Welcome to Biology](#) - Plan Name links to **Lesson Plan Summary** screen.

## Courses Visible at One Time on the Calendar

The number of courses visible on the Calendar at one time is controlled by the “**How many courses would you like to display on your calendar**” parameter on the **Lesson Planner**→**Setup**→**Preferences** screen. To navigate through all your courses, use the control at the upper right corner of the Calendar day cells:

Next >>

---

<< Prev

This control lets you step through all your courses, showing the number of courses you have chosen to see at one time in the strips on your Calendar screen. If your chosen number is 3, you will see a maximum of three courses at one time on the Calendar.

## CALENDAR SINGLE DAY VIEW

You change the view from an entire week to one day. To do this click on the highlighted date at the top of the day you wish to view.

Clicking the date expands the clicked date into a full screen view:

You can navigate through the days by using the Next and Previous day buttons:

To return to the full calendar view, relick the highlighted date:

## Other Messages that Appear in Calendar Days

Messages can appear on the Calendar. For example, if conference slots have been set up for a Teacher, that information can be displayed on the teacher's Lesson Calendar. Days when school is not in session are also displayed:

Note that on days when school is not in session, it is not possible to add Lesson Plans to the Calendar.

## Calendar “Expanded Plan” Week View

When you click on the **name** of a Lesson Book in the left side label, the Calendar screen changes to “Expanded Plan” mode. The Calendar focuses down to the one Lesson Book and expands all of that book’s plans for the week to display their contents:

**You can still do all normal functions to lesson plans.**

**The contents of all of the week's plans (for the selected Lesson Book) are displayed.**

**Re-click the name of the Lesson Book to return to the regular Calendar screen.**

**You can add additional plans to any day of the week, just as on the regular Calendar.**

The “Expanded View” displays the contents of all lessons for the week and allows you to perform all normal Lesson Plan operations: create new plans, copy plans, move plans. You simply do this with all plan content on display.

2. Locate the row for the Lesson Book you wish to update and click on the Edit icon on the right hand side. This brings up the **Lesson Planner**→**Lesson Books**→**Modify Lesson Book** screen.
3. If you are using Genesis Gradebook, and have a Gradebook for this course, you can link it to this Lesson Book by using the **Is this lesson book tied to a Gradebook** drop down:

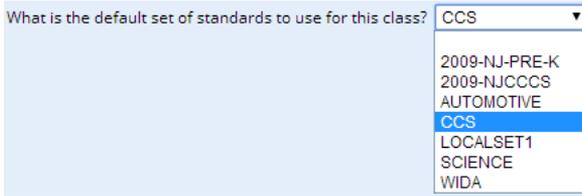

Is this lesson book tied to a gradebook?

4. What is the default set of standards to use for this class? This is an ease of use capability. Initially no default standards are set:

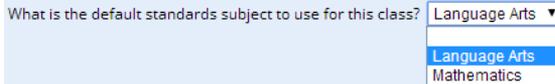

What is the default set of standards to use for this class?

What is the default standards subject to use for this class? *Select and save a set of standards above in order to fill this in.*

To set a default set of standards, first select the year of the standards:

After selecting the Standards Set, click the **Save Book** button. This causes the Subjects for the selected Set to be displayed in the drop down:

Select the **subject** you wish to use as the default. This will cause the selected standards set & subject to be the default for every “Search standards” action for this Lesson Book. (E.g. NJ 2009 / Social Studies).

- Optionally select a “Background Color” for this Lesson Book. This allows you to color code Lesson Books on the Calendar screen:

- To specify the grade level(s) covered by the plans in this book, please select the grade levels:

There will be a checkbox for all grade levels in your school.

- Click **Save Book** to save your other changes.

## Ordering Lesson Books on the Calendar

The order of your Lesson Books on the [Lesson Planner](#)→[Calendar](#) screen is controlled by the “Order lesson books by?” parameter in your Personal Preferences. Lesson Books can either be ordered by the “period” during which the course or subject is taught –or you can personally choose the order by using the “Sequence” number field of the Lesson Book’s preferences. If you choose “Sequence Number”, you **MUST** set each Lesson Book’s “Sequence” number field in order to position it properly in your list of Lesson Books. Use the “Procedure to Set Lesson Book Preferences” immediately above to set the Sequence number (and thus the position in the list) of each Lesson Book. The Sequence number for a Lesson Book can be changed at any time.

## Making New Lesson Books

You are automatically given a Lesson Book for every course section or subject you are scheduled to teach. You can create as many additional Lesson Books as you wish. To do this, go to the [Lesson Planner](#)→[Lesson Books](#)→[List Books](#) screen:

The screenshot shows the 'List Books' interface. At the bottom left, there is a 'Create a Lesson Book' button. A yellow callout bubble points to this button with the text 'Create book button'. Another yellow callout bubble points to the 'Name' column of the table, with the text 'Textfield for name.'.

Name	Color	Language/Subject	Course/Period	Seq	Priority	CR	Day	Days	Units	Lessons

Lesson Book Number 10	None	Co	35210/0	0	1				1	0
My New Lesson Book	None	Color	35210/0	0	1				2	2

At the bottom left of that screen, there is a [Create a Lesson Book](#) button. Click that button to create a new Lesson Book. The new Lesson Book will have a standard name: “Lesson Book 1” (“Lesson Book” followed by a number). You can change that name to anything you want.

**CAVEAT:** Lesson Books you create manually **cannot be attached to Gradebooks**. If you are scheduled to teach a course or subject and you do automatically get a Lesson Book for it, please tell your System Administrator. **DO NOT MANUALLY CREATE LESSON BOOKS FOR COURSES/SUBJECTS YOU ARE SCHEDULED TO TEACH.**

## Create a New Lesson Plan

A lesson plan can be created directly in the “class day box”:

### Procedure to Create a New Lesson Plan

1. Navigate to your Lesson Plan Calendar: **Lesson Planner**→**Calendar** Screen
2. Locate the day box in which you want to create your lesson plan.
3. Click the **Create** button for the cell. This brings up the “Select or Create Unit” control in the cell.
4. Select a Unit or Create a Unit
5. Click the **Create Lesson** button. This creates the lesson plan and brings up the “Modify Lesson Plan” screen.

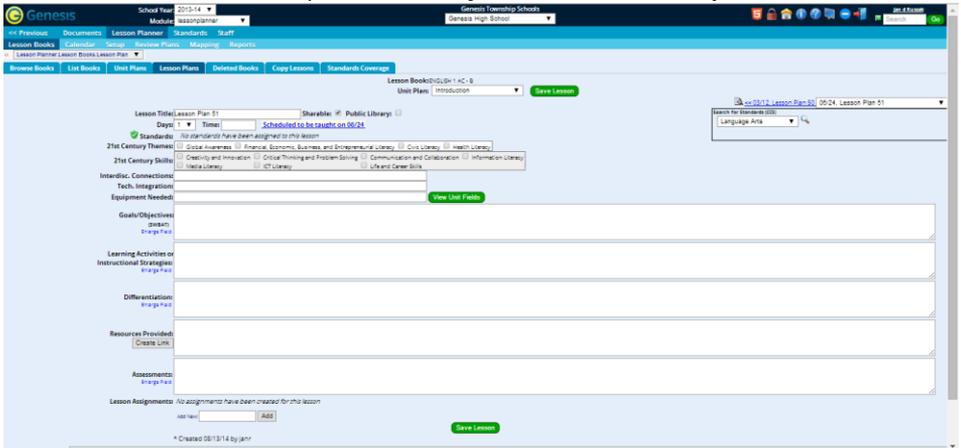

To create a new Unit, simply type the name of the new Unit in the “Create Unit” text field. The Unit is created when you click **Create Lesson**. Only a name is required to create a Unit – all details can be filled in later.

### *Procedure to Create and Fill in a Lesson Plan*

1. Go to the **Lesson Planner**→**Calendar** screen.
2. Find an empty day cell and click on the **Create** button. This brings up the “Create Lesson” form (see image above).
3. Select Unit or enter a name for a new Unit.
4. Click **Create Lesson**. This creates the Lesson Plan and brings up the Modify Lesson screen.
5. Update the various plan fields (these fields maybe different for your template):
  - a. Lesson Title
  - b. Days
  - c. Standards
  - d. 21st Century Skills
  - e. Interdisc. Connections
  - f. Tech Integration
  - g. Equipment Needed
  - h. Goals/Objectives
  - i. Learning Activities or Instructional Strategies
  - j. Differentiation
  - k. Resources Provided
  - l. Assessments
  - m. Lesson Assignments
6. Click the **Save Lesson** button to store your changes.

## A Tour Through a Lesson Plan

The Modify Lesson Plan screen is brought up when “Create Lesson” is clicked. The only populated fields are the name of the Unit Plan and the Title of the Lesson defaults to “Lesson Plan 1”. This example uses the **default Lesson Plan Template**.

### Lesson Title, Days and Standards

The Lesson Title is what will appear as the name of the lesson plan. This defaults to a simple “Lesson Plan #” and should be changed to reflect your design for the Lesson Plan:

The Days counter reflects the number of class-days the lesson will last. This defaults to 1 day but can be adjusted for longer lessons:

Adding standards to the Lesson:

The “Search Standards” tool defaults to the Standards Year and Subject you chose for this course on the Modify Lesson Book (i.e. preferences) screen. See below, **Searching for Standards**.

### Informational Fields

The following fields are “FYI” only and are not processed internally:

- 21<sup>st</sup> Century Themes

- 21<sup>st</sup> Century Skills

21st Century Skills:	<input type="checkbox"/> Creativity and Innovation	<input type="checkbox"/> Critical Thinking and Problem Solving	<input type="checkbox"/> Communication and Collaboration	<input type="checkbox"/> Information Literacy
	<input type="checkbox"/> Media Literacy	<input type="checkbox"/> ICT Literacy	<input type="checkbox"/> Life and Career Skills	

- Interdisciplinary Connections and Tech Integration fields

**Interdisc. Connections:**  **Tech. Integration:**

- Equipment Needed – A text field to allow you to list needed items.

**Equipment Needed:**

- The next three fields text fields are quite large and can hold a great deal of information:

Goals/Objectives: <small>(SWBAT)</small>	<input type="text"/>	↕
Learning Activities or Instructional Strategies:	<input type="text"/>	↕
Differentiation:	<input type="text"/>	↕

- Resources Provided – This section allows you to list the resources you will use in the course and you can create URL links to web pages outside of Genesis anywhere on the World Wide Web.

**Resources Provided:**

- Assessments – The Assessments text box allows you to specify the assessments you will do to judge student progress.

**Assessments:**

## Gradebook Assignments in Lesson Plans

The **Lesson Assignments** field allows you to create “template” Gradebook Assignments that can later be ‘pushed’ to the linked Genesis Gradebook to create actual Gradebook Assignments. This is described below.

**Lesson Assignments**

## Saving Changes to a Lesson Plan

To save all your changes to your Lesson Plan, you must always click the Save Lesson button:

This sends your changes to the Genesis server and stores them in the database. If you do not click “Save Lesson” your changes do not get sent to the server and do not get saved. Think of “Save Lesson” as “send to the server”.

## SEARCHING FOR STANDARDS

To access the Standards search tool to add standards to a Lesson Plan, locate the “Search for Standards” control at top right. The “Search for Standards” tool defaults to the subject you chose on your Lesson Book preferences screen for this

Lesson Book. Click the  icon to bring up the Standards Search Tool.

### Standards Sets

Genesis includes several built-in sets of Standards. The primary two are:

- 2009 NJ Core Curriculum Standards
- Common Core English Language Literacy and Mathematics Standards

The way you search for each Set differs. This will be explained below.

You can add standards from either set (or any other available set) to a Lesson Plan or an Assignment. There are no limits to the number of standards that can be added to a single Lesson Plan or Assignment. Standards from multiple sets, subjects and strands can be mixed in a single Lesson Plan or Assignment.

### Procedure to Add Standards to a Lesson Plan, or Assignment

1. While editing a Lesson Plan or an Assignment, locate the “Search for Standards” box, select a subject and click on the  magnifying glass search icon.
2. This brings up the “Search for Standards” popup.

3. Here you can adjust the standards set: **Standards Set:** **2009-NJCCCS**. This field defaults to the standard set you selected as the default for the Lesson Book.
4. Select a Subject: **Subject:** **Social Studies**. This field defaults to the subject you selected as the default for the Lesson Book.
5. Select a Standard/Strand: **Standard:** **3-Active Citizenship in the 21st Century**.
6. Grade levels: **Grade(s):**  K  1  2  3  4  5  6  7  8  9  10  11  12
7. Enter any CPI Keywords – these will be used to search for matching CPIs.
8. And Click **Search Standards**. This will locate matching CPIs and display them:

Standard	Strand	Grades	Index	CPI Description
<input type="checkbox"/> Active Citizenship in the 21st Century	Civic Government and Human Rights	9.10.11.12	6.3.12.A.01	Develop a plan for public accountability and transparency in government related to a particular (issue) and share the plan with appropriate government officials.

**Hit Save to add Standard**

1. 2009-NJCCCS.6:2.A:12.03.G

2. 2009-NJCCCS.6:2.A:12.04.A

To add the selected standards to the Assignment or Lesson Plan, click the **Save Lesson** or the **Save Assignment** button. This moves the standards from the search box into the Lesson Plan or the Assignment. **CAVEAT:** When the standards are simply listed in **red font** they are NOT yet part of the Lesson Plan or Assignment. You must click the Save button to actually add them.

11. To add additional standards to an Assignment or Lesson Plan, repeat steps 1 through 9.

Standards that are added to a Lesson Plan are available to be included in any Assignment added to that plan. Standards that are added to an Assignment are “inherited upward” to the Lesson Plan.

## Embedding Gradebook Assignments in a Lesson Plan

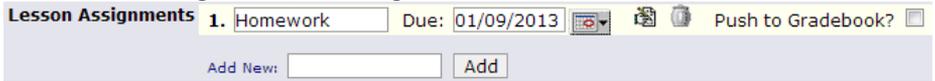

The “Assignments” control allows you to create ‘template’ assignments for your Lesson Plan. These can later be “pushed” to the Genesis Gradebook to create real Gradebook Assignments.

To create an Assignment, type its name in the “Add New” text field and click Add:

This creates the template Assignment, adds it to your Lesson Plan, and, if it is the first Assignment in the Lesson Plan, opens up a new “Lesson Assignments” field listing the Lesson Plan’s Assignments, including their due dates.

## Modifying Template Assignments, Select Standards, Add Documents

To edit an Assignment template, click the corresponding icon.

The top of the Modify Assignment screen identifies the Lesson Book, Unit and Lesson Plan of which this Assignment is a part (note the color-coded Unit Plan name):

**Lesson Book:** ENGLISH 1 AC - B  
**Unit Plan:** Unit Plan 1 **Lesson Plan:** Features of Non-Fiction Text 4

Below that the Lesson Title, Description and Due Date can be adjusted:

If no standards have been selected and none have been added to the Lesson Plan, the following message appears:

**Standards:** *No standards have been assigned to this assignment*

When standards are linked to the Lesson Plan, they are automatically added to the Assignment and can be viewed and, if necessary, removed here:

1. 5.4A Grade 12 CPI 01 

Explain how new evidence obtained using telescopes (e.g., the phases of Venus or the moons of Jupiter) allowed 17th-century astronomers to displace the geocentric model of the universe.

2. 5.4A Grade 12 CPI 02 

Collect, analyze, and critique evidence that supports the theory that Earth and the rest of the solar system formed from a nebular cloud of dust and gas 4.6 billion years ago.

## Standards:

3. 5.4A Grade 12 CPI 04 

Analyze simulated and/or real data to estimate the number of stars in our galaxy and the number of galaxies in our universe.

4. 6.1A Grade 12 CPI 02.A 

Analyze the intellectual origins of the major ideas expressed in the Declaration of Independence.

To remove any of these, click the corresponding Trash Can icon. This unlinks the standard from the Assignment, but since the standard is part of the lesson plan, it leaves it available to be re-added:

1. 5.4A Grade 12 CPI 02 

## Standards:

## “Pulling” Information from Unit Plans into Lesson Plans

Three types of information in Unit Plans can be “pulled” into Lesson Plans:

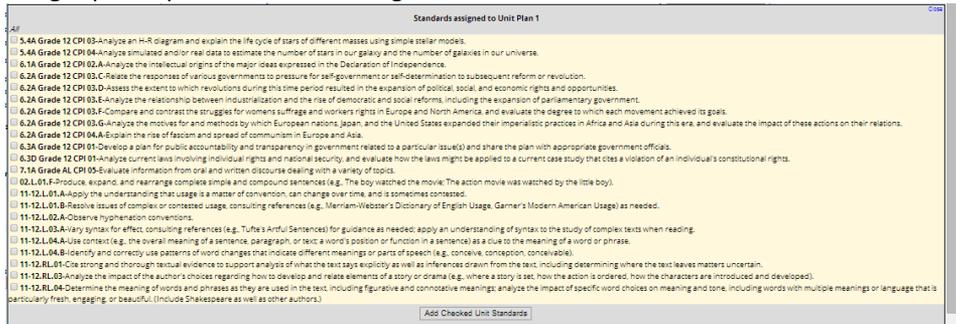

- Standards
- Documents that have been uploaded into the Unit
- Text from the Unit’s fields

### Pulling Standards from the Unit into the Lesson Plan

When a Unit Plan contains standards that the Lesson Plan does not, a  green shield appears next to the standards list:

To pull any of the Unit’s standards into the Lesson Plan, click the  green shield. This brings up the “pull standards” dialog box:

Check off all of the standards you wish to ‘pull’ into the Lesson Plan. To bring them all in, use the “All” button in the header line. Then click the  button. The selected standards appear in red on the right hand side “Search for Standards” box:

Click  to add the standards to the lesson plan.

### Pull Documents attached to the Unit into the Lesson Plan

When documents have been uploaded into the Unit, they will appear at the bottom right corner of Lesson Plans in the “Uploaded Unit Documents” list:

#### Uploaded Unit Documents:

1. [Unit 3 - Types of Nonfiction.pdf](#) 

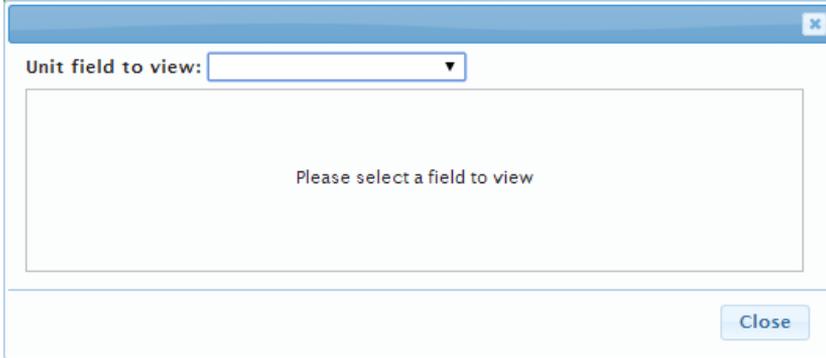

To ‘pull’ a Unit document into the Lesson Plan, click the  copy icon. Click this immediately copies the document into the Lesson Plan and adds to the existing list of Lesson documents:

Text can be copied from any Unit field into the Lesson Plan. To view the text in Unit Plan fields, locate the **View Unit Fields** and click it. This brings up the Unit field viewer dialog:

Select the Unit Plan field to view from the “Unit field to view” drop down box:

Selecting a field automatically displays the contents of the field. You can then copy the text and paste it into your Lesson Plan.

Click **Close** to dismiss the Unit Field viewer dialog.

## The Lesson Plan Libraries: Public and Private

There are two 'lesson plan' libraries:

- Your private Lesson Plan library
- The district-wide "Public Library"

Every plan you ever create is automatically in your own private lesson plan library. Only plans with the "Public Library" checkbox checked are in the district's Public Library.

### Search for Lesson Plans in the Library(/Libraries)

You search the libraries when you want to find a plan to add to your Calendar. There is a lesson plan search dialog that allows you to look in your current Lesson Books, your Lesson Pal's Lesson Books, your own 'trashcan' and in the public library:

User	Lesson Book	Unit Plan	Lesson	Days	Starts	

### Procedure to Search the Lesson Plan Library

1. Go to your **Lesson Planner**→**Calendar** screen.
2. Locate a Lesson Book/Calendar day and click its Search button. This brings up the search dialog.
3. Along the left side you will find various search criteria, starting with your own lesson books:

The default search is for "All Lesson Books" – meaning all of your own Lesson Books. Or uncheck "All Lesson Books" and specify exactly which of your Lesson Books to search.

7. You can additionally choose which of your Lesson Pals’ books to search:

**Lesson Pals:**

- Lesson Plan, L. P.
- Teacher-User, LessonPlanner
- Demo, Middle School
- russak, jan
- Russak, Lp lp, Jam

## COPY or MOVE LESSON PLANS

Lesson Plans can be copied:

1. From Day to Day
2. From Week to Week
3. From one Lesson Book to another
4. From your Lesson Pals' Lesson Books to your own.
5. En masse: Copy an entire week's worth of Lesson Plans all at once.
6. En masse: Mass copy from Year-to-Year or from Lesson Book-to-Lesson Book

Lesson Plans can be moved:

1. From one day to another
2. From one Unit to another

### Procedure to Copy a Lesson from Day to Day

1. Go to your **Lesson Planner**→**Calendar** screen.
2. Locate the Lesson Plan you wish to copy:

The screenshot shows the Lesson Planner interface. At the top, it displays 'Introduction Lesson Plan 5'. Below this, there is a toolbar with buttons for 'Edit', 'Move', 'Del', and 'Copy'. Further down, there is another toolbar with buttons for 'Add', 'Paste', 'Print', and 'Search'. At the bottom of the main interface, there is a toolbar with buttons for 'Create', 'Search', and 'Paste'. A blue arrow points from the 'Paste' button in this bottom toolbar to the 'Paste Lesson' button in a dialog box. The dialog box has a 'Close' button at the top right, a 'Select a Unit' dropdown menu, an 'or Create Unit' text input field, a 'Link Plans' checkbox, and a 'Paste Lesson' button. At the bottom of the dialog box, there is a toolbar with buttons for 'Create', 'Search', and 'Paste'.

3. Click the **Copy** button. This places the Lesson Plan on the clipboard. Note that the unclickable **Paste** buttons of all the empty day cells go from black font to clickable blue **Paste**. The can now be clicked to “paste” what is on the clipboard into the cell.
4. Now find the day cell you wish to copy this Lesson Plan to and click the **Paste** button to paste the copied Lesson Plan into the new cell. This brings up the Paste dialog.
5. Select or create a Unit. If no unit is selected or create, the Unit of the Lesson Plan will also be copied.
6. Optionally check the “Link Plans” checkbox. Linked plans are tightly coupled except by date. See below.
7. Click **Paste Lesson** to do the actual copy.

### Procedure to Move a Lesson Plan from one Unit to another Unit

1. Go to your **Lesson Planner**→**Calendar** screen.
2. Locate the Lesson Plan you wish to move from Unit to Unit.
3. Click on the  Lesson Plan edit button to open the plan for editing. This brings up the Modify Lesson Plan screen.
4. At the top of the screen, locate the “Unit Plan” drop down:

5. Select the Unit to which you want to move the Lesson Plan from the **Unit Plan** drop down.
6. Scroll to the bottom of the screen and click  to move the Lesson Plan to the newly selected Unit Plan.

### Procedure to Move a Lesson from Day to Day

1. Go to your **Lesson Planner**→**Calendar** screen.
2. Locate the Lesson Plan you wish to move and click the  button. This causes a “Move” control to appear:

3. Select the date you wish to move the Lesson Plan to.
4. Click . But what if there is already a lesson in the day you select?
5. If there is a lesson in that day already, you are given 4 options:
  - a. **Add** the moved lesson to the new day.
  - b. **Move** the existing lesson (and all other

lessons affected) forward by 1 day.

- c. **Swap** the two lessons – Put the existing lesson in the old date. Move the one you originally chose to the new.
- d. **Cancel** the move.

We have detected that a lesson already exists on 04/19. Select an option below:

### Copying a Week’s Worth of Plans in One Operation

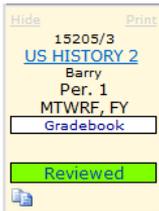

It is possible to copy all Lesson Plans in a single week at once. Initially, all plans for the week are placed on the Clipboard and then they are pasted into another Lesson Book – or into a different week of the same Lesson Book. Note that dates are **not** preserved during this copy. If there are less than five plans in the week (i.e. less than a full week), the copied plans cluster at the start of the week.

## Procedure to Copy a Week's Worth of Plans in One Operation

1. Go to your [Lesson Planner](#)→[Calendar](#) screen.
2. Select the week to copy from.

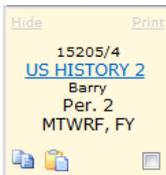

3. Locate the Lesson Book whose entire week of Plans you wish to copy:

Locate the  mass copy icon at the bottom left corner of the Lesson Book label. Click it. This copies all of that Lesson Book's Lesson Plans (and Unit Plans) for the week to the Clipboard. A new icon appears in the Lesson Book label for each Lesson Book, in all weeks: . This is the "mass paste" icon.

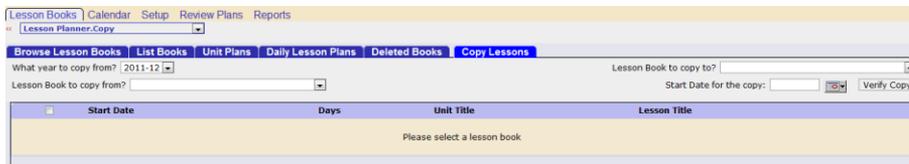

4. Select the week and Lesson Book into which you want to copy the week's worth of Lesson Plans. Click the  icon for that Lesson Book & week.

Locate the  mass copy icon at the bottom left corner of the Lesson Book label. Click it. This places all the plans on the Clipboard into the select Lesson Book. CAVEAT: Dates are NOT honored. The pasted Lesson Books are grouped at the start of the week.

5. Once the "paste" is complete, the Clipboard is emptied. To copy the same week's worth of Lesson Plans to another Lesson Book, you will need to start over at step 2 above. That is, the week's worth of Lesson Plans can only be pasted once.

## Copying Lesson & Unit Plans from Year to Year and Lesson Book to Lesson Book

The [Lesson Planner](#)→[Lesson Books](#)→[Copy Lessons](#) screen allows you to copy from Lesson Book to Lesson Book. It is general purpose – the "From" Lesson Book can be in any School Year: this year, last year or any year in which you used the Genesis Lesson Planner. It can be used to easily mass copy Lesson Plans from Lesson Book to Lesson Book in the current school year – and it can be used to copy Lesson Books from last year to this year.

*Procedure to Copy Lesson Plans from a Prior Year to This Year and Lesson Book to Lesson Book*

1. Go to the [Lesson Planner](#)→[Lesson Books](#)→[Copy Lessons](#) screen.
2. Select the year to copy from: What year to copy from? . This control defaults to the **current year** (2012-13). If you are doing a Year-to-Year copy, you will need to select the prior year you wish to copy from (e.g. 2011-12).
3. Select the Lesson Book to copy from: Lesson Book to copy from? . This contains all of your personal Lesson Books from the selected year. Once you have select a Lesson Book, that book’s Lesson Plans will appear in the list below:

Start Date	Days	Unit Title	Lesson Title
01/09/2012	7	Unit Plan 1	7 Lessons

13. Click Ok to complete the copy procedure.

## Multiple Lesson Plans in a Single Day

You can place multiple Lesson Plans in one day of a Lesson Book:

- There is no limit to how many Lesson Plans can be placed in one Calendar day of a Lesson Book.
- The multiple Lesson Plans need not be in the same Unit. Multiple Unit Plans can also be placed in one Calendar day.
- Each Lesson Plan will have its own function buttons.

## Working with Linked Plans

When Lesson Plans are linked, any change to one of the linked plans, is made to all of the linked plans. The only updates that are not applied to all linked plans are date changes (i.e. when a plan is moved from one day to another).

## Identifying Linked Plans

Plans linked to other plans can be identified by the  'link' icon that appears in the icon list:

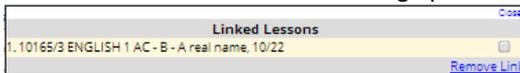

The  icon lets you know that this lesson plan is linked to others. Edit the plan to view the linked-to information.

At the top of the "Modify Lesson Plan" screen for linked plans, you will see a [Linked to 1 plans](#) message specifying how many plans are linked to the current plan.

### Procedure to Copy Lesson or Unit Plans

5. If you only want to copy the Units, not the Lesson Plans, check the “**Copy Units Only**” checkbox:  Copy Units Only
6. Optionally, select a **Start Date** for the copy:

**CAVEAT:** You may copy plans **without** a start date. When you do this, the copied plans cannot appear on the Calendar (because they have no date).

They will only appear on the [Lesson Planner](#)→[Lesson Books](#)→[Lesson Plans](#) screen.

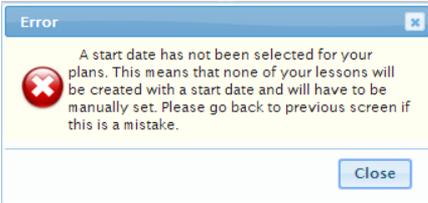

7. Select the Lesson Book to copy the select plans into:

8. Select the plans you wish to copy by checking the checkboxes along the left hand side of the list. The checkbox in the header selects all the plans in the list:

10. The screen now shows the “Copy From” information on the left and the “Copy to” information on the right:

11. You can optionally change the Units into which the individual plans will be copied (if you are copying Lesson Plans in addition to Units). You can also exclude individual plans from the copy by unchecking their checkboxes.

When you are ready to actually do the copy, click the [Copy Lessons](#) button.

12. If you have not selected Start Dates, you will be warned again:

13. Once the copy has completed, a verification message is displayed:

## Copying Prior Year Plans to the Current Year

There is a “Restore Books” button for each deleted Lesson Book.

Why is this screen here, why would you delete a Lesson Book and why save them?

1. You can only delete a Lesson Book if it contains no Lesson Plans.
2. Since the Lesson Planner automatically creates Lesson Books for every class or subject you are scheduled to teach, it must “remember” that you deleted a Lesson Book or it will automatically re-create the book. This screen is now the Lesson Planner “remembers” that you once had a Lesson Book – so that it won’t accidentally recreate it.
3. You can delete any Lesson Book you do not need to add lessons to. And, of course, using this screen, you can recover any Lesson Book you have accidentally deleted.

**NOTE: Lesson Pal requests are one way:** When you make a Lesson Pals Request it is because you want to share **your** plans with that user. The request is one way; if the other user wants to share **their** plans with you, they must make a separate Lesson Pals Request to you.

## Accessing Lesson Pals' Lesson Books, Unit and Lesson Plans

At the bottom of the [Lesson Planner](#)→[Lesson Books](#)→[Browse Books](#) screen there is a “Lesson Pals Books” area. Initially, before anyone has sent you a Lesson Pals Request, your Lesson Pal Books area is empty:

Lesson Pal® Books (0)				
User	Days	Units	Lessons	
No Lesson Books have been shared with you				

Once another user has sent you a Lesson Pals Request, and you have accepted, you will be able to see their shared Lesson Books. Similarly, if you send a Lesson Pals Request to another user, once they have accepted, they can see your Lesson Books:

Lesson Pal® Books (9)				
User	Days	Units	Lessons

## GRADEBOOK AND LESSON PLANNER INTEGRATION

The Gradebook and Lesson Planner are tightly coupled. When Assignments are pushed to the Gradebook, they continue to be linked back to the Lesson Plan from which they were created.

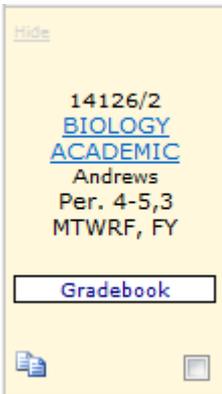

### Procedure to Associate a Lesson Book with a Genesis Gradebook

See page 10 above for a full “Set Lesson Book Preferences” procedure.

1. Navigate to the [Lesson Planner→Calendar](#) Screen
2. Locate the row for the Lesson Book you wish to update and click on the highlighted name of the course. This brings up the [Lesson Planner→Lesson Books→Modify Lesson Book](#) screen.
3. To link this Lesson Book to a Genesis Gradebook, and have a Gradebook for this course, select the target Gradebook using the [Is this lesson book tied to a Gradebook](#) drop down:

Is this lesson book tied to a gradebook?

4. Click  to save your other changes.

Once a Gradebook has been linked to a Lesson Book, a “Gradebook” button appears on the course information area on the [Lesson Planner→Calendar](#) screen. Click the “Gradebook” button to go to the linked [Gradebook’s Gradebook→Gradebook](#) spreadsheet screen.

Once a Gradebook is linked to a Lesson Book, ‘template’ Assignments in the Lesson Plans can be ‘pushed’ to the Gradebook.

### *Procedure to go to a Lesson Book’s Associated Genesis Gradebook*

OPTION 1:

1. **Go to your [Lesson Planner→Calendar](#)** screen and locate the course info area at left. Click on the course’s  button. This takes you to the spreadsheet screen of the associated Gradebook:

From **Gradebook** → **Gradebook**, click the “**Lesson Plan**” quick link to return to your Lesson Planner.

**OPTION 2:** When a Gradebook is attached to a Lesson Book, a bluebook icon appears on the **Lesson Planner** → **List Books** screen:

### Pushing Assignment Templates to the Gradebook as Real Assignments

Lesson Plans can contain “template Assignments” (see above, pages 11 to 15). When a Lesson Book is linked to a Gradebook, and it becomes time to teach a Lesson, the Lesson Plan’s template Assignments can be pushed to the Gradebook as actual Gradebook Assignments. There are two ways to do this.

#### Procedure to Push Lesson Plan Assignments to the Genesis Gradebook

1. Navigate to your Navigate to the **Lesson Planner** → **Calendar** Screen.
2. Select a Lesson Plan and open it for editing.
3. Locate the template Assignments at the bottom of the plan. There will now be “**Push to Gradebook**” checkboxes next to each Assignment:

Lesson Assignments:	Item	Due:	Push to Gradebook?
1.	HW 21	10/22/2013	<input type="checkbox"/>
2.	Quiz	10/22/2013	<input type="checkbox"/>
3.	Class Project	10/22/2013	<input type="checkbox"/>

4. Check the **Push to Gradebook** checkbox of the Assignment you wish to push. This opens a “**Select assignment options**” box:

1. Homework 1   Push to Gradebook?

**Select assignment options:**

Category:  Grade Type:  Points:

For Parents:  For Gradebook:

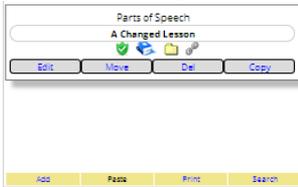

5. Select the **Category** (e.g. Homework, Quizzes, Tests, etc.) for the Gradebook Assignment. This is a required field.
6. Select the **Grade Type** for the Assignment. This is required.
7. Optionally adjust the **Points** the Gradebook Assignment will be worth.
8. Check the **Parents** checkbox if the Assignment is to be IMMEDIATELY available to parents, students, administrators via Web Access.
9. Uncheck the **“For Gradebook”** checkbox if you want hide the Assignment. When **“For Gradebook”** is unchecked, the Assignment appears only on the **List Assignments** screen, not on your spreadsheet.
10. Scroll to the bottom and click **Save Lesson** to push the Assignment to the Gradebook. Once the Assignment has been pushed, its highlighted name (e.g. **“Summary HW”**) is a link to the Gradebook itself:

**Lesson Assignments** 1. Summary HW  

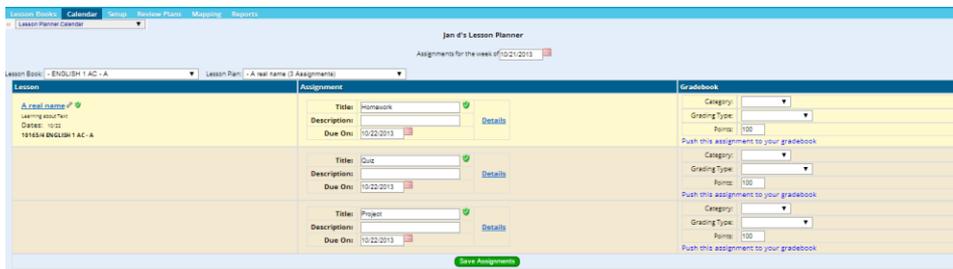

**Assigned to Gradebook** as a Homework named [Summary HW](#), due on 04/18

*Procedure to Mass Push Assignments to the Genesis Gradebook*

1. Navigate to your **Lesson Planner**→**Calendar** screen.
2. Locate a day with a Lesson Plan:

3. Click on the  bluebook “Assignments” icon. This brings up a screen containing all of your Assignments for the entire Lesson Book, organized by individual Unit Plans:

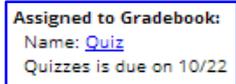

4. On this screen, you can push multiple Assignments for multiple Lesson Plans in multiple Unit Plans to the Lesson Book’s associated Gradebook. For each Assignment you want to push, do the following:

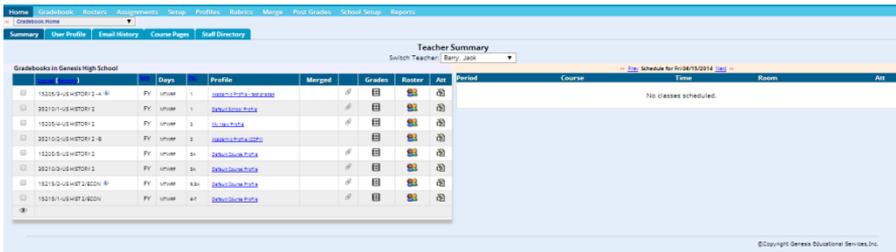

- a. Select the Assignment **Category**
- b. Select the Assignment **Grading Type**
- c. Adjust the **Points**
- d. Click the [Push this assignment to your gradebook](#) link.

You can also adjust the Assignment’s Title (i.e. Name), Description and Due date from here.

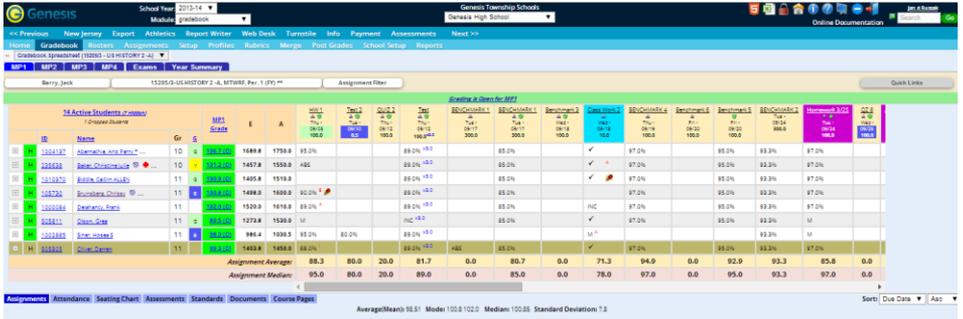

5. Once you have ‘pushed’ the Assignment to the linked Gradebook, its **name** becomes a link to the Gradebook’s Home screen:

Click the name of the Assignment to bring up the Gradebook in a separate browser window:

Assignments marked “For Gradebook” appear on the Gradebook spreadsheet screen:

## Lesson Planner Assignments, Gradebook and Parent Access

Template Assignments in a Lesson Plan can have:

- Documents attached
- Standards attached

When an Assignment is pushed to a Gradebook, both standards and attached Documents go along:

- The Standards appear on the Modify Assignment screen and can be edited there.
- The Documents appear on the Modify Assignment screen and can be edited there.

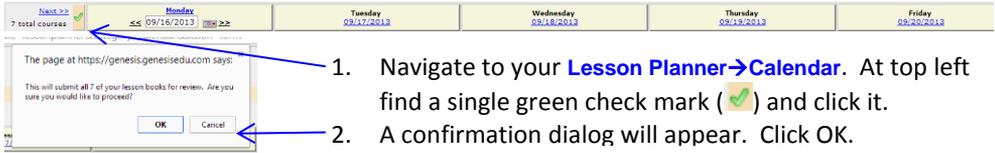

➤ **When an Assignment with attached Documents is shared with Parents (i.e. Web Access) the Documents are available for parents, guardians, students and possibly administrators to download.**

Documents are uploaded into Assignments so that they can eventually be made available in Parents/Web Access. To attach documents to a Lesson Book which are NOT to be made available in Web Access, upload them into Unit Plans, not to template Assignments.

## SUBMITTING YOUR LESSON PLANS FOR REVIEW

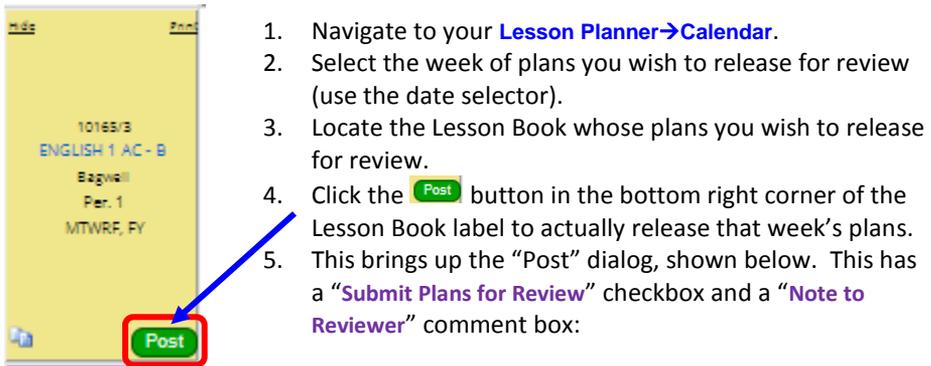

Lesson Plans must be formally released for review by administrators. This is done via the Calendar screen. Plans are released a week at a time. You can release ALL your lesson books with one click or release each Lesson Book individually.

### Procedure to Release All Lesson Plans for Review with a Single Click

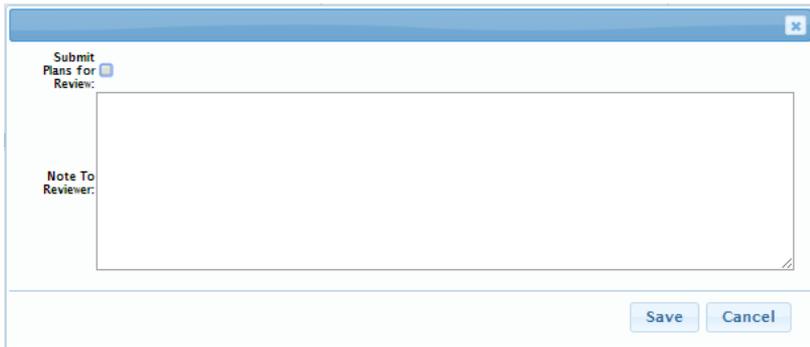

1. Navigate to your **Lesson Planner**→**Calendar**. At top left find a single green check mark (✓) and click it.
2. A confirmation dialog will appear. Click OK.

### Procedure to Release One Lesson Book's Lesson Plans for Review

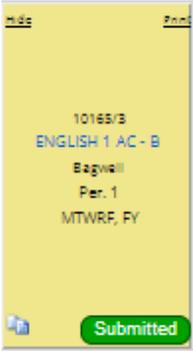

1. Navigate to your **Lesson Planner**→**Calendar**.
2. Select the week of plans you wish to release for review (use the date selector).
3. Locate the Lesson Book whose plans you wish to release for review.
4. Click the **Post** button in the bottom right corner of the Lesson Book label to actually release that week's plans.
5. This brings up the "Post" dialog, shown below. This has a "Submit Plans for Review" checkbox and a "Note to Reviewer" comment box:

To submit plans for the review, check the **Submit Plans for Review** checkbox and click the "Save" button. To leave a note for your reviewer, type in the box.

### “Submitted” Indicator & Notes to your Reviewer(s)

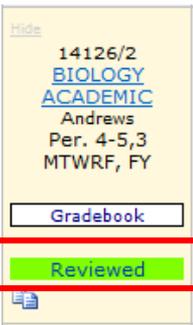

Once you have submitted your plans for review, the “Post” button becomes a **Submitted** button. You can click the **Submitted** button to update your message to your reviewer(s):

To update your message to your reviewers, click the **Submitted** button, update the message, then click **Save**. You can do this at any time in the review process.

### “Review Complete” Indicator

When a plan has been reviewed and the reviewer(s) indicate they have finished, a **Reviewed** indicator appears in the Lesson Book info area:

The **Reviewed** indicator is also a link which, when clicked, will bring up a PDF “Lesson Plan Review” report (see below).

#### Procedure to View Reviewers’ Comments

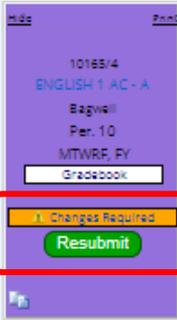

1. Navigate to your **Lesson Planner** → **Calendar** screen.
2. Locate Lesson Book info panels displaying a **Reviewed** link.
3. Click the **Reviewed** link for a week of lesson plans. This brings up a PDF Lesson Plan Review report listing reviewer(s) comments on each lesson in the week of lessons:

Date	Lesson	Reviewers Comment
09/22/2011	Welcome to Biology	Excellent Plan!
09/23/2011	Welcome to Biology, Part II	Good job!

**Note:** Lesson Plans are released and reviewed on a week by week basis. You release the plans and your administrator(s) review them, then you get to see the comments.

### Requiring Changes: The “Changes Required” Indicator

When a plan has been reviewed and the reviewer(s) indicate wants you make changes, a **Changes Required** indicator appears in the Lesson Book info area:

The **Changes Required** indicator also brings up a PDF of the reviewer's comments when clicked (See above). It is also accompanied by a **Resubmit** button.

### **Procedure to Respond to "Changes Required"**

4. Navigate to your **Lesson Planner**→**Calendar** screen.
5. Locate Lesson Book info panels displaying a **Changes Required** link.
6. Click the **Changes Required** to view comments. Make your changes and click **Resubmit** to resend your lesson plans.

The "Resubmit" dialog displays the reviewer's comments about your plan and includes a comment area for you to respond. Simply click **Save** to **resubmit** your plans for the week:

 A screenshot of a 'Resubmit' dialog box. The title bar is blue with a close button. The main area is white. On the left, there is a 'Reviewer:' label. Below it, the 'Comments:' label is followed by the text 'Where's Wednesday's plan?'. Below the comments is a large, empty text area for the user to respond. To the left of this text area is the label 'Note To Reviewer:'. At the bottom right, there are two buttons: 'Save' and 'Cancel'.

## STANDARDS COVERAGE

The Standards Coverage screen ([Lesson Planner](#)→[Lesson Books](#)→[Standards Coverage](#)) shows what standards you have touched on, for how many lessons covering what percentage of the days of the class:

The screenshot shows the Standards Coverage interface with the following callouts:

- Frequency Column:** Identifies how many lessons cover this CPI how many class days that represents.
- % of Days Column:** Percentage of class days this CPI was touched upon.
- Class Average:** If this CPI was attached to any GB Assignments, and those were graded, the class average for this one CPI shows here.

### Filtering for Specific CPIs (Used vs. Unused)

The controls at the top of the Standards Coverage screen allow you to search for various groups of standards, including those covered or those not covered:

The screenshot shows the top controls of the Standards Coverage screen with the following settings:

# LESSON PLAN TEMPLATES

## Creating Lesson Plan Templates

If you have permission to create your own Lesson Plan Templates, you will have access to the [Lesson Planner→Setup→Templates](#) screen:

The screenshot shows the 'Lesson Plan Templates' screen. At the top, there are navigation tabs: '<< Previous', 'Documents', 'Lesson Planner', 'Standards', and 'Staff'. Below these are sub-tabs: 'Lesson Books', 'Calendar', 'Setup', 'Review Plans', 'Mapping', and 'Reports'. The main navigation bar includes 'Lesson Planner: Setup: Templates', 'Preferences', 'Staff to User', 'Lesson Pal Requests', 'Document Management Integration', 'Custom Fields', 'Templates', and 'Admin Tools'.

The main content area is titled 'Lesson Plan Templates' and includes a sub-header 'Copy school template from 2012-13'. Below this is a table with the following columns: Code, Template Name, Type, Books tied to template, Shared, Default, and two icons (trash and refresh).

It can also be found on the **Lesson Planner**→**Setup**→**Templates** screen, at the bottom:

Propagation Options to Other Users

When a user first logs into lesson planner, the following will happen:

This template will replace the default template for the user.

Save Screen

4. You can update the Unit Plan's name:
5. You have three options for adjusting Unit Plan fields:
  - a. Determine which fields to display and which to hide by checking/unchecking the "Display" checkboxes.
  - b. Determine the **order** the fields will be displayed in by updating their Sequence numbers. Fields are always displayed in numerical order.
  - c. Enter "boiler plate" text into the fields. This text will be added to every Unit Plan created using this template.
6. When you are done, check the "**This template will replace the default template for the user**" checkbox.
7. Click Save Screen to finish the update.

### **Additional Unit Plan Fields**

You cannot personally create additional fields for Unit Plans. There are up to 5 additional "custom field" slots available **school wide** for Unit Plans. These fields **do not appear** on the "Modify Unit Plan" screen unless they have been "named". Speak to your system administrator (or your supervisors) about "naming" those 5 additional custom slots and making them available to use. The "custom field" slots are never automatically included in the Unit Plan template; you will need to use the above procedure to modify your Unit Plan to include the fields once they have been made available to you.
