

Dear Parents/Guardians,

I have set up my students to have access to an amazing program that our school offers for free called Raz-Kids. We will be using this program in our classroom and it is a great tool to also use at home to help your child become a great reader!

You can keep reading Raz-Kids books at home, or any place that has computers with Internet access--like the library.

Here is how to access the website and your reading assignment from any computer connected to the Internet:

1. Go to www.raz-kids.com from your Internet browser and click on **Log in**
2. Type in your teacher's username **dinaheerema** and click **Go**
3. Find your name on the chart and click on that symbol.
4. The books in your assignment appear on your own assignment page. You can choose to listen, read, or take a quiz by clicking on the symbols below each book.

Remember, the more you read, the better reader you will become!

Sincerely,

Mrs. Heerema ☺
