

In a previous tutorial we discussed the information available by clicking the student name link in your gradebook. This is essentially information pertaining to your class such as class attendance, assignments, grading and contacts. Today we will highlight information available by clicking the student ID link.

The screenshot shows the Genesis gradebook interface for Southern Regional High School. The browser address bar shows the URL: <https://genesis.srsd.net/genesis/sis/view?module=gradebook&category=gradebook&tab1=assignments&tab2=>

The page title is "Genesis" and the school year is "2009-10". The course is "4110/7 - WORLD HISTORY, MTWRF, F". The teacher is "Rainone, Annice".

The student list shows 21 active students. The columns include "ID Name", "MP1 Calc. Grade", "E", "A", and various assignment scores. The "ID Name" column contains student IDs and names, such as "21 Amirr, Zachary Joseph".

Two callouts are present:

- The first callout points to the "ID Name" column and states: "The student ID link is the district student ID by default but can be changed like Annice did in this screenshot. Scroll down to see information contained in this link."
- The second callout points to the flags in the "ID Name" column and states: "Hold your mouse over student flags to see a description. Flags include; medical condition, media release form, KI pill, AUP, 504 and IEP."

At the bottom of the page, there are tabs for "Assignments", "Attendance", and "Seating Chart". The "Assignments" tab is selected. The "Assignment Average" is shown as 87.48. The "Sort" dropdown is set to "By Due Date".
